PRIYANSHU DAS

Frontend Developer | Web Developer

New Delhi, India | +91 93153 02782 | Priyanshudas272006@gmail.com
Portfolio: priyanshudas607.vercel.app | GitHub: github.com/PriyanshuDas607 | LinkedIn: linkedin.com/in/priyanshu-das-919a1a302

SUMMARY

Frontend Developer and B.Tech Computer Science (AI & ML) student who builds responsive, user-friendly web applications using HTML, CSS, JavaScript, TypeScript, React and Tailwind CSS, with working knowledge of Node.js, Flask and REST API integration. Completed a 3-month Web Developer internship at UptoSkills and deployed live projects in fintech, legal-metrology and retail domains. National-level hackathon finalist and Ideathon winner. Seeking a part-time, remote, entry-level Frontend/Web Developer role.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Tailwind CSS, Vite, Responsive Web Design, Cross-Browser Compatibility

Backend & Databases: Node.js, Express.js, Flask, REST APIs, JWT Authentication, Role-Based Access Control (RBAC), PostgreSQL, Prisma ORM, MongoDB, Firebase, MySQL

Programming Languages: JavaScript, TypeScript, Python, C++, Java, C

Tools & Platforms: Git, GitHub, Vercel, VS Code, Linux, Ubuntu, Canva

AI/ML & Emerging Tech: Prompt Engineering, Generative AI, LangChain, OpenRouter API

WORK EXPERIENCE

Web Developer Intern | UptoSkills **3 Months**

- Developed and maintained responsive web interfaces using HTML, CSS, JavaScript and React as part of a 3-month web development internship.
- Converted design requirements into clean, cross-browser compatible UI components and pages.
- Used Git and GitHub for version control and followed standard front-end development workflows.

PROJECTS

CrediFlow | Credit Score Platform for Gig Workers

Tech: HTML, CSS, JavaScript, Flask, LangChain, OpenRouter API

- Built the frontend interface for a fintech platform designed for India's 400M+ gig workers.
- Integrated an AI-powered financial co-pilot and an automated credit-risk assessment tool through REST API calls to a Flask backend.

Mapan | Legal Metrology Operating System (Smart India Hackathon 2026)

Tech: React 19, TypeScript, Vite, Node.js, Express, Firebase Firestore, PostgreSQL, Prisma | Live: mapan-r76.vercel.app | *Code:* github.com/PriyanshuDas607/Mapan-r76

- Built a full-stack platform for testing and certifying weighing instruments per OIML R-76 (SIH 2026, Problem Statement 26035), replacing manual spreadsheet calculations and paper certificates.
- Implemented an automated formula engine that computes intrinsic errors and step-function Maximum Permissible Error across accuracy classes I to IIII, with real-time tolerance alerts.
- Added tamper-evident certificates using SHA-256 digital sealing and scannable QR verification, plus a chained audit trail that logs every user action.
- Implemented role-based access control (Admin and Operator roles) and PDF certificate generation with print-ready layouts.

Nayantara Opticals | Optical Store Website and Management Platform

Tech: React, Node.js, JWT, OTP Verification, RBAC | Live: nayantara-opticals.vercel.app

- Built a responsive storefront for an independent optical store in New Delhi with product catalog, category browsing, lens comparison and eye-test appointment booking.
- Added a prescription entry page, customer ratings and reviews, and a guided frame-finder quiz to improve the customer experience.
- Implemented JWT authentication, OTP verification and role-isolated administration using role-based access control.

EDUCATION

B.Tech, Computer Science Engineering (AI & ML) **2nd Year, Currently Pursuing**
Maharaja Agrasen Institute of Technology (MAIT), GGSIPU, Delhi

Class XII (CBSE) | M R V Model School, New Delhi **63%**

Class X (CBSE) | M R V Model School, New Delhi **75%**

ACHIEVEMENTS & AWARDS

- Winner, Pitch Your Idea 3.0: 1st place at a national-level idea presentation competition.
- National Finalist, HYPERSPACE Hackathon (IPEC): selected among top teams nationwide.
- Finalist, XCELERATE 3.0 Ideathon (Shiv Nadar University).
- Finalist, CodeVeda 2.0 Hackathon (ADGIPS): top 15 teams, ThoughtWorks Gurugram.
- Competed in multiple national-level Capture The Flag (CTF) cybersecurity competitions.

CERTIFICATIONS

- CS50: Introduction to Computer Science, Harvard University (in progress).
- Workshops: Microsoft Office, Be10X AI, IGDTUW Build Space.
