

PRIYANSHU DAS

B.Tech Undergrad | CSE – Artificial Intelligence & Machine Learning | MAIT, GGSIPU, New Delhi
+91-931502782 | Priyanshudas272006@gmail.com | New Delhi, India

ABOUT ME

A dedicated B.Tech student specializing in Artificial Intelligence and Machine Learning at Maharaja Agrasen Institute of Technology, New Delhi. Experienced in web development (HTML, CSS, JavaScript, C++), prompt engineering, and building real-world software solutions. Collage-level Ideathon winner and finalist in various hackathons with hands-on project experience in healthcare tech and student productivity apps. Active cybersecurity enthusiast with CTF competition experience. Seeking a software development or AI/ML internship to contribute and grow.

EDUCATION

- **B.Tech in CSE (Artificial Intelligence & Machine Learning)** — Maharaja Agrasen Institute of Technology (MAIT), GGSIPU, Delhi | 2nd Year | Currently Pursuing
- **Class XII — CBSE** | M R V Model School, New Delhi | Percentage: 63%
- **Class X — CBSE** | M R V Model School, New Delhi | Percentage: 75%

TECHNICAL SKILLS

- **Programming Languages:** C | C++ | Java | Python (Beginner)
- **Web Development:** HTML | CSS | React | Tailwind CSS
- **AI & Tools:** Prompt Engineering | Generative AI | Vibe Coding | OpenRouter API
- **Database :** MongoDB | Firebase | MySQL
- **Tools & Technologies:** Git | Canva | Stitch | Linux | Kali Linux | Ubuntu
- **Networking :** Computer Network | Network Protocol | TCP/IP | OSI Model

PROJECTS

- **MediVenture – Drug Inventory & Supply Management Platform** (HTML, CSS, JS) — A platform helping pharmaceutical suppliers manage near-expiry medicines efficiently, reducing waste and enabling better redistribution to pharmacies and hospitals. Features include inventory tracking, expiry alerts, supplier dashboard, and optimized stock redistribution workflows.
- **X-Ray Technician Service Platform** (HTML, CSS, JS) — A business platform connecting X-ray technicians with clinics and diagnostic centers for service discovery and booking. Includes technician profiles, appointment scheduling, and service listing management.
- **CrediFlow — Credit Score for Gig Workers** — Decentralized financial identity platform for 400M+ gig workers, bypassing traditional CIBIL limitations through a consent-based lending marketplace and secure blockchain architecture. Developed an Agentic AI Gig Credit Score (GCS) and an AI Financial Co-Pilot using LangChain and OpenRouter API for personalized financial insights and automated credit risk assessment. **Stack: HTML | CSS | JavaScript | Flask | LangChain | OpenRouter API | Blockchain**

ACHIEVEMENTS & AWARDS

- Winner – Pitch Your Idea 3.0: Secured 1st place for innovative idea presentation at national level competition.
- National Finalist – HYPERSPACE Hackathon (IPEC): Selected among top teams nationwide for technical excellence.
- Finalist – XCELERATE 3.0 Ideathon (Shiv Nadar University): Recognized for project conceptualization and pitching.
- Finalist – CodeVeda 2.0 Hackathon (ADGIPS): Competed among top 15 teams at Thought Work, Gurugram
- Cybersecurity: Competed in multiple National Level CTF (Capture The Flag) competitions.

CERTIFICATIONS & COURSES

- CS50: Introduction to Computer Science — Harvard University | Currently Pursuing
- Workshops: Microsoft Office | Be10X AI | IGDTUW Build Space

EXTRA-CURRICULAR ACTIVITIES

- **Rakshana — Cybersecurity Society** | Member — Official Cybersecurity Society, Maharaja Agrasen Institute of Technology, Delhi
